

Round Sequence

- 1. COMMAND PHASE:** Pass First Player marker and gain **(S)+2** Command Chips. Stage one Air Group for each Fleet or Light Carrier. Stage two Air Groups on each Airfield.
- 2. ACTION PHASE:** Alternate spending Command Chips to perform actions, one at a time.

Actions

- **MOVE:** Move a friendly unit. Each unit may move only once per round.
Stacks: 8"
Revealed miniatures: 4".
- **AIR ACTION:** Target an enemy unit with an Air Action.
- **FOG OF WAR:** Select a Revealed Task Force that was not revealed this round.
Place a new Base Chip within 2" and remove the miniature.
Mix the Task Force's chip with D3 blank chips and form a new Stack.

Gun Battle

If two opposing Revealed Task Forces make Visual Contact (within 2"), a Gun Battle ensues.

- 1. GATHER GUNS DICE:** Both players gather a number of D6 equal to the total Guns value of their Task Force.
- 2. RESOLVE GUNS DICE:** Both roll Guns dice.
4-5: Unconfirmed Hit, assigned by the owner of the target.
6: Confirmed Hit, assigned by the player that rolled them. Each hit sinks a ship (unless Armoured).
- 3. VICTOR CONSOLIDATES:** Player who inflicts the most total hits is the victor and they may make a free Move action, during which they may ignore the losing TF but must end outside of Visual Range of all enemy units.

Air Action

Strike Range is **18"**. Recon Range is **36"**.

- 1. BRIEFING STEP:** Secretly select one friendly air-enabled Task Force or Airfield. Declare target unit in range. Optionally commit a staged Air Group card. Declare unit in range.
- 2. RECON STEP:** Roll 2D6. **<= 8**, look at the lower of the two dice rolled: this is the number of chips you may peek at. Discard your committed Air Group card to re-roll.
Shuffle the enemy chips, look at #chips = lower of the two dice.
May reveal or return TFs or Blank Chips found. If you Reveal a TF, place it within 2"/Visual Range of the stack. Must reveal Gambits. Shuffle and replace.
- 3. DECLARE STRIKE STEP:** Reveal a black committed Air Group card to launch a Strike against any target Revealed Task Force in Strike Range. Amass Strike dice on that black card = Strike value of TF it comes from. Can't place more Strike dice on a given Air Group card than the current Aircraft value of the Task Force it originates from. If no Strike, skip to Debriefing
- 4. INTERCEPTION STEP:** Defender may reveal red Air Group cards from the Strike Target and/or any friendly Task Forces within **8"** of the target to roll D6 equal to combined CAP values of participating TFs. Each **5+** discards an incoming Strike Die.
- 5. AA STEP:** Defender rolls D6 equal to the AA value of the Strike Target. Each **6+** discards an incoming Strike Die.
- 6. STRIKE STEP:** Roll remaining Strike dice. **4 or 5:** Unconfirmed Hit, assigned by the owner of the Strike Target. **6:** Confirmed Hit, assigned by the player that rolled them. Must be assigned to ships in Strike Target. Each hit sinks a ship (unless Armoured).
- 7. DEBRIEFING STEP:** Revealed Air Group cards are discarded. Hidden Air Group cards returned to their TFs, and may be used again this round.

GAMBITS

Add **(S)** gambits at random to your pool of chips. Reveal on Visual Contact / Recon Action.

- | | | |
|--|--|---|
| <ol style="list-style-type: none"> 1 UNEXPECTED APPROACH VECTOR:
Owner selects one enemy Stack and places it anywhere within 18" of the Stack this Gambit was found in. Then discard this Gambit. 2 RADIO CHATTER: Owner selects one enemy Stack and reveals it in full. Then discard this Gambit. 3 MISCALCULATION: Owner may select any/all of their units within 6" of the Stack this Gambit was found in and move those units up to 6". Then discard this Gambit. | <ol style="list-style-type: none"> 4 CODES BROKEN: Owner receives one Command Chip and their opponent must discard one Command Chip. Then discard this Gambit. 5 MISIDENTIFIED!: Owner selects any two of their own units and swaps their positions. Then discard this Gambit. 6 CRITICAL DAMAGE: Owner takes this chip. They may discard it during an Air Action to re-roll any of their Strike dice. | <ol style="list-style-type: none"> 7 MINES: Owner places it into play. For the rest of the game, enemy Task Forces within 3" of this chip suffer Confirmed Hits on 5 or 6 instead of just 6 during Gun Battles or Strikes. 8 UNFORESEEN DELAY: Owner selects one enemy unit and moves it 6" in any direction, then discards this Gambit. 9 HEROIC DAMAGE CONTROL: Owner selects one sunk ship in any in-play Task Force and 'unsinks' it. Discard the Gambit. |

Classes & Fleet Mods

PACIFIC COMMAND

Ship & Squadron Classes

CLASS	COST	ROLE	SPECIAL RULES
Fleet Carrier	25	Aircraft 15	High Value, Armoured (2)
Light Carrier	10	Aircraft 6	High Value
Seaplane Tender	3	—	Catapult
Battleship	15	Guns 8	High Value, Armoured (3)
Heavy Cruiser	10	Guns 4	Catapult, Armoured (2)
Light Cruiser	6	Guns 2	Catapult
Destroyer	3	Guns 1	Depth Charges
Submarine	6	Guns 1	Submarine, Weak AA Defences
Auxiliary	2	—	Weak AA Defences
Fighter Squadron	1	CAP 1	Squadron
Bomber Squadron	1	Strike 1	Squadron

Special Rules

- **ARMOURED (X):** When the Attacker assigns Confirmed Hits to a ship with the Armoured (X) rule, it must be assigned X hits or ignores all assigned hits. A single Unconfirmed Hit sinks this ship.
- **CATAPULT:** May launch Recon Air Actions without an Air Group card (unless in an area of Poor Visibility).
- **DEPTH CHARGES:** In Gun Battles, rolls of **5** are Confirmed Hits, assigned to Submarines (Unconfirmed if all Submarines are sunk).
- **HIGH VALUE:** These ships are of high value to the fleet and may be treated differently in scenario victory conditions.
- **SUBMARINE:** At the start of the Command Phase, any TF that contains only Submarines automatically becomes hidden. During Gun Battles, roll Submarine attack dice separately: rolls of **4** are Unconfirmed Hits, rolls of **5** or **6** are Confirmed Hits.
- **WEAK AA DEFENCES:** A ship with this rule contributes no AA dice during the AA Step of an Air Action.

USN – EARLY WAR MODIFICATIONS

- **ENEMY CODES:** This Fleet receives one additional Command Chip each round.
- **INCREASED AIRCRAFT CAPACITY:** Carriers in this fleet gain +3 to their Aircraft value.
- **UNRELIABLE TORPEDOES:** When rolling Strike dice, the attacker must re-roll all its Confirmed Hits once.

IJN – EARLY WAR MODIFICATIONS

- **COORDINATED STRIKES:** During Air Actions, may discard a black Air Group card from another TF in the same Stack to add its Strike value when amassing Strike dice.
- **EXTENDED CRAFT RANGE:** This Fleet has a Strike Range of **24"** and a Recon Range of **48"**.
- **INEFFECTIVE AA:** *Disadvantageous.* After rolling AA dice for this Fleet, discard half of the hits (keeping an odd hit).
- **MOBILE FORCE DOCTRINE:** No limit on the number of Fleet Carriers in any Task Force.
- **SEASONED PILOTS:** When rolling Strike dice, rolls of **3** also count as Unconfirmed Hits. When rolling Intercept dice, rolls of **4+** are hits.
- **SUPERIOR FIGHTERS:** When this fleet rolls Intercept dice, they may re-roll any misses once.

USN – LATE WAR MODIFICATIONS

- **COORDINATED STRIKES:** During Air Actions, may discard a black Air Group card from another TF in the same Stack to add its Strike value when amassing Strike dice.
- **ENEMY CODES:** This Fleet receives one additional Command Chip each round.
- **INCREASED AIRCRAFT CAPACITY:** Carriers in this fleet gain +3 to their Aircraft value.
- **MOBILE FORCE DOCTRINE:** No limit on the number of Fleet Carriers in any Task Force.

IJN – LATE WAR MODIFICATIONS

- **AIRCRAFT SHORTAGE:** *Disadvantageous.* All ships in this Fleet halve their Aircraft values, rounding up.
- **COORDINATED STRIKES:** During Air Actions, may discard a black Air Group card from another TF in the same Stack to add its Strike value when amassing Strike dice.
- **EXTENDED CRAFT RANGE:** This Fleet has a Strike Range of **24"** and a Recon Range of **48"**.
- **INEFFECTIVE AA:** *Disadvantageous.* After rolling AA dice for this Fleet, discard half of the hits (keeping an odd hit).
- **ROOKIE PILOTS:** *Disadvantageous.* When this fleet rolls Strike dice, only rolls of **5** count as Unconfirmed Hits. When this fleet rolls Interception dice, only rolls of **6** count as hits.

Setting Up A Game

1. **CHOOSE A SCENARIO:** From the Historical Scenarios, or generate one with Arcade Mode.
2. **AGREE A BATTLE SCALE:** Choose **(S)**, from 2 (skirmish) to 7 (huge engagement).
3. **BUILD FLEETS:** Per the Fleet Building rules ($\leq 100 \times (S)$ points each).
4. **PREPARE TASK FORCE SHEETS:** One per Task Force, for both players.
5. **DRAW GAMBITS:** Shuffle Gambit chips and draw **(S)** at random.
6. **ORGANISE CHIPS INTO STACKS:** One chip per TF + your Gambits + **3x(S)** Blank Chips, into up to **(S)+2** Stacks, each on a Base Chip.
7. **GATHER AIR GROUP CARDS:** Split a deck of cards by colour (1 red + 1 black suit each). Gather Flagship miniatures.
8. **FOLLOW SCENARIO SETUP RULES:** Table layout, terrain, deployment & first player are set by the scenario.
